

ALEXANDRIA.

MONDAY EVENING, JULY 16.

THE CABINET. - On Saturday last President Johnson nominated to the Senate, A. W. Randali, now First Assistant Postmaster General, to be Postmaster General, in the place of Mr. Dennison, resigned. No other resignations of Cabinet officers had been received by the President up to noon on Saturday.

The newspapers state that Attorney General Speed has sent in his resignation to the President. The friends of Mr. Speed report that in his letter to President Johnson, he was even more emphatic than Mr. Dennison of his disapproval of the President's policy. The resigaction of Secretary Harlan is daily expected.

Secretary Seward has written a letter to the National Union Committee, approving of the proposed National Union Convention to be held in Philadelphia. Mr. Speed, late Attorney General, has written a letter to the same committee, disapproving of the call for the proposed Convention. He "approves of many of the principles set forth in the call for the Convention, and yet does not approve of the call itzelf." In other words he will go with the Radicals.

The "Freedmen's Equal Rights Convention in Georgia" recently investigated the conduct of J. E. Bryant, the President of their association, and their committee reported "favorably." Whereupon, Gen. Tillson informed the members of the aforesaid convention and association that the said Bryant was "a liar and swindler," and that the course he is pursuing is "injurious to the colored race." And then, the Conven tion "thanked Gen. Tillson for his informa-

He is accused of not knowing anything | the work marked out for her. about mechanical subjects, of being ignorant of goography, and remarkable in the way of spelling! It is said that he writes-"Shugar Cain The flower picking, fruit dispensing, shrub donating Chief of the Agricultural Bureau."

The Washington Chronicle says:-"John Minor Botts, John F. Lewis, Franklin Sterns, Daaries F. Lewis, and W. J. Cowing, of Virgania, and Captain W. R. Hillyer, of Florida, neve each written letters enthusiastically enflorsing the Southern Radical Unionists' call or a convention in Philadelphia." This "endorsement" may probably exercise "immense 'négence' in Virginia!!

The National Intelligencer says: "It is the Enterest of the party in control of Congress to heap the South out as long as possible, because if the South is restored, the party in power is meakened to the extent of the political power of the South. This constitutes the real, practical difficulty of reconstruction."

Washington, D. C., July 11, 1866. SIR: I have the honor to tender you here-with my resignation of the office of Postmaster General, to take effect upon your notifying me

In thus withdrawing from your Cabinet, it is proper to say that I do so chiefly because of the difference of opinion between us in regard to the proposed amendment of the Constitution, which I approve, and the movement for the convention to be held at Philadelphia on the 14th proximo, to which I am opposed. My confidence in the patriotism of the Union Republican party, and conviction that upon its in large measure the peace and happiness of the country, will not permit of my holding any equivocal attitude in respect to it.

Assuring you of my personal regard and appreciation of the uniform courtesy I have reseived from you.

am, very respectfully, yours, &c., W. Dennison.

EXECUTIVE MANSION, WASHINGTON, D. C., July 14, 1866. CIR: Your esignation of the office of Postmester General, tendered in your letter of the 11th inst., is hereby accepted.

Fully appreciating your kind assurance of personal regard, I am, very truly and respect-To the Honorable WILLIAM DENNISON, Wash ngton, D. C.

Proceedings of Congress.—The Senate, on Saturday, amended and adopted the resolution from the House, to appoint a joint committee on retrenehment in the civil, military and naval service. This committee is also to inquire into the expediency of retaining appointees in office in the civil service, during good behavior, etc. A bill was reported appropriating \$50,000 in aid of the sufferers by the Portland fire.

In the House there was quite a lively discuszion on the Senate bill to authorize the construction of bridges over the Mississippi, for railroad purposes, with a pending amendment reserving the right to Congress to cause the re moval of all obstructions to the navigation of he river, which may be caused by such bridges. The debate at times became some-what exciting, and there were several calls to order. The pending amendment was finally rejected and he bill passed. A bill was reported to give Jongressmen a salary of eight thousand dollars or each Congress, besides mileage, at the rate of ten cents per mile.

NEWS OF THE DAY.

'To show the very age and body of the Times."

During the week ending on Friday last, 37 cases of supposed cholera were reported to the New York board of health as occurring in that city, of which 11 were genuine. Eight of the 11 proved fatal. In Brooklyn, 26 cases of supposed cholera have thus far been reported to the assistant sanitary superintendent. Of these 10 were genuine, 12 were not and 4 are still undecided. The bulletins of the board of health recorded no new cases of cholera in New York on Friday, and but one, and that not likely to prove fatal, in Brooklyn.

During the debate upon declaring the Clinton bridge across the Mississippi a post road, quite an exciting debate sprang up in the House. In the course of it, while denouncing monopolies, Mr. Hogan, of Missouri, directly charged that these great monopolies had upon the floor of the House their agents, and stockholders and feed attorneys, to vote for them. This language was decided out of order. After much sharp and somewhat angry debate, the measure was defeated.

Reports received at the Treasury Department state that the Southern States are at present flooded with counterfeit United States notes, national bank notes, and fractional currency of every denomination. One of the Treasury detectives, while on an official visit in one of the Southern cities, observed that an immense quantity of this spurious money is circulating there among all classes, who, with few exceptions, accept it as readily as the

John D. Pennybacker, esq., of Rockingham, sustained a very severe injury to one of his feet on Monday morning last. He was operating a mowing machine in one of his fields, and had his foot caught in the machine and nearly severed from the ankle. Fvery bone, except one, was cut in two. A long time must clapse before Mr. P. can have the use of his foot.

About 160 negroes from Washington city passed through Lynchburg Saturday evening, en route to Rome, Georgia, where they have been employed to work on a railroad. The most permanent control of the Government depend of them had on uniform, and we presume have been in the army. They were a most dilapidated and seedy set throughout.

The publication of the letter list of the Richmond Post Office has been awarded to the Richmond Times, as the paper having the largest circulation in that city.

A MODEL BAILROAD. - "Crocus," the facetious correspondent of the Pithole Record, writes to that paper from Richmond, Va., and thus describes the medium of transportation: "We came by way of the Orange, Lemon, and Alexandria railroad, and would say to persons who are tired of life and, in a hurry to get through, try this line. You leave Washington in the evening, and, as a general thing, will arrive in Heaven or Richmond the next day .-Each train is provided with a surgeon, undertaker, amputating table, and other luxuries; besides these, it has some of the finest coffins I ever expect to see. Hospitals are established along the entire route, and in case of fatal accident, the bodies of stangers are immediately embalmed. The arrangements are so perfect, and accidents so sure on this road, that many persons have their limbs taken off and get embalmed before starting, to avoid delay while on

the cars.' We publish the above for the humor it contains. Of course we do not endorse his unjust aspersions upon one of our best railroads.

LATEST FROM EUROPE.

THE WAR LIKELY TO END.

The steamship Africa reached New York resterday with advices from Europe to the 4th instant. Earl Derby had submitted to the Queen the following names to compose the new Ministry, which were approved: Earl Derby, Premier; Mr. D'Israeli, Chancellor of the Exchequer; Lord Stanley, Foreign Secretary; General Peel, War Secretary; Sir J. Packington, First Lord of the Admiralty; Hon. Mr. Walpole, Home Secretary; Mr. Northcote, Chief of Board of Trade; Duke of Buckingham, President of the Council.

The Prussians have stormed and captured the walled town of Gitschin, in Bohemia, causing a loss to the Austrians of four thousand men in killed and wounded. The Prussian loss was also heavy. The total Austrian loss, up to the latest advices from Germany, is estimated at from thirty to forty thousand men. By the successful storming of Gitschin the two Prussian armies of the Prince Frederick Charles and the Crown Prince were enabled to form a junction. A number of Austrian and Hanovercrian regiments are said to have been wholly annihilated during the assault.

The Austrian telegrams report that in the engagement at Turnau the Prussians were defeated. Several other engagements of more or less importance are said to have resulted favorably to the Austrians. On the other hand the Crown Prince of Prussia says that the result of the three days fighting, in which the fifth Prussian corps had been engaged cannot be too highly estimated. He claims that in the battle of the 27th an intercepted letter from General Ramenig to General Benedek proved that the sixth Austrian corps was so thoroughly exausted by the hard fighting that Gen. Ramenig solicited a reinforcement of two brigades that the portfolio of the War Department until he his troops might bivouac under their protection. On the 28th and 29th the fighting was resumed, It is stated at the Treasury that the actual and the Austrians are reported to have been again beaten, with the loss of innumerable prisoners, twenty guns, five colors and two stand-
